

EU Customs Tariff - Illustrative Excerpt (fictional teaching data)

Import duty rates

Programmable controllers and PLC control units (tariff heading 8537 10) imported from Japan into the European Union: the customs duty rate is 2.2 percent of the customs value. Servo motors (heading 8501): 2.7 percent. Industrial sensors (heading 9031): 0 percent.

Import VAT

Germany charges import VAT (Einfuhrumsatzsteuer) of 19 percent on the customs value plus duty. Intra-EU business-to-business supplies with a valid VAT ID are zero-rated under the reverse-charge mechanism.

Note

These figures are illustrative teaching data and not legal or tax advice.
